FRANK KEEN IS ARESTED IN CLIFTON

Prank Keen, charged with theft by ballee, on complaint of Jose Macina filed in the court of justice of the peace E. B. McClintock, was arrested Tuesday at Clifton, Ariz. Notification to that effect was contained in a telegram to police chief I. N. Davis from John Patty, sheriff of Clifton. Macias, the complainant, is said to be the owner of a Chalmers "six," which it is alleged, was driven by Keen to Clifton. Deputy constable J. W. Brown left Wednesday morning for Clifton. He will return with Keen in the car.

An Easy Way to Get Fat and Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drussing their stomach or stuffing it with greasy foods; ribbling on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your directive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very sisments needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its rescuerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pais them into the blood, where they are earlied to every starved, broken-down cell and tissue of your boody. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from it to 3h pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. A. E. Ryan, and other leading druggists of El Passo and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every packing.

Caution:—While Sargol has given excellent results in overcoming nervous dynespels and general atomach troubles it should not be taken by those who do not wish to gain ten pounds or more.—Adivertisement.

Clay, Robinson & Co., to Handle the Business in El Paso in Future.

Mexico as the future cattle kingdom of the western hemisphere and El Paso

as the port of entry for this kingdom has been recognized by the oldest and best known eattle commission company in the United States.

The firm of Clay, Robinson and company has decided to establish a branch house in El Paso. The El Paso office is located in the southwest corner of the Hotel Sheldon building and is the elevinh branch of this well known commission firm has in the United States.

commission firm has in the United States.

The Meximan and western Texas trade is the loadstone that is attracting the Chicago firm to El Paso. Mexico has a future in the cattle business that even the most optimistic cattlemen cannot foresee. Western Texas is a cattle empire in its own right and El Paso is more and more being recognized as the capital of this range. J. L. Bush, formerly of Denver and Omaha, will be in charge of the El Paso office of the company and will have his headquarters at the Sheldon much of his time in the field, and J. Kennedy, of Denver, will be the office manager of the company's interests here. The new offices in the Sheldon building are being refurnished and fitted for the commission company's headquarters and this will become one of the centers of the cattle commission business in the southwest.

The new office here will do no speculative business but will confine itself to the legitimate commission business in keeping with its well established policy of square dealing and business in keeping with its well established policy of square dealing and business in the live stock industry. The establishment of the El Paso office is a recognition by the cattle
trade of the importance of El Paso as
a cattle center and a coming cattle
metropolis of the southwest and of
Mexico. Slowly the cattlemen have been
driven from the central states, the
middle west and even the southwest,
by the farmers, and homesteaders. The
line has slipped further and further
south until it has crossed the international boundary and has taken in
all of northern Mexico as its legitimate
trade territory. Of this great territory, El Paso is the logical entry port
and the establishment of such an important office as that of Clay, Robinson and company puts El Paso on
record as the place of prime importance in the eyes of the forward lookling cattlemen.—Advertisement.

BANK BIDS IN THE GUARANTY BUILDING

At a receivers' sale held Wednesday, John H. Harper disposed of the Guar-anty Trust and Banking company's building, now the Electric building, to the Rio Grande Valley Bank and Trust the Rio Grande Valley Bank and Trust company, which company took over the accounts of the Gustantee bank when it was liquidated. The building was bid in by the Rio Grande company for \$30,000 and the assumption of a mortgage of \$70,000. This does not represent the real value of the building, but was only a legal step to conclude the liquidation and the discharge of the receiver.
